

Some Vacation Advantages

TO REMEMBER AS YOU PLAN
FOR YOUR SUMMER OUTING

Peters' Sunset Beach Hotel, designed, owned and operated by the Peters family, possesses advantages worth your consideration if you would realize all vacation pleasures. As you plan your holiday these advantages stand out:

☆ Every one of the Peters family is sincerely interested in your welfare at Sunset Beach.

☆ An American plan hotel offering sleeping accommodations from hotel rooms to private cottages.

☆ Acres of shaded lawn affording a hideway for reading and complete relaxation.

☆ Fishing and all sports with facilities for the entire family. Children accommodated as well as adults.

☆ Meals that are planned by a member of the Peters family each day. Abundant servings and fresh vegetables used generously.

Many places to loaf in quiet seclusion.

Miniature grass greens golf course on the grounds.

☆ Located in Central Minnesota — the heart of Minnesota's Fish Bowl — where days are warm and the nights are cool.

☆ Only 3 miles south of Glenwood, a friendly city, where you will find stores, medical and dental care, Catholic and Protestant churches and a fine new hospital.

☆ The Hotel and Cottages are located among a virgin growth of American Elms on the East shore of Lake Minnewaska—rich in Indian Lore and the setting for the beautiful Indian Legend "The Tribe of Pezhe-kee" which is the basis for a most unique decorative scheme carried out in our dining room and lobby by John Wm. McArthur. The romance of Chief White Bear and the Indian Maiden Minnewaska is beautifully depicted in a set of paintings by Gustave Krollman.

Not all the advantages have been listed, for there are the intangibles: service, atmosphere, friendliness, comfort, the congeniality of other guests—the many other little things that contribute so greatly to your happiness—the little things that bring people back year after year to their summer home.

Won't you come to Minnesota—and Peters' Sunset Beach Hotel at Glenwood, Minnesota?

Lobby—main hotel building.

The State maintains a fish hatchery on Lake Minnewaska.
